

BUSRA YAGCIOGLU

Software Engineer | Full-Stack & Mobile Developer

busrayagcioglu2003@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience building full-stack web applications, mobile products, AI-integrated tools, and IoT systems. Experienced with React, React Native, Expo, Django REST Framework, Flask, Firebase, and ESP32. Published Android applications on Google Play and developed deployed web/mobile projects with a practical focus on clean user interfaces, API integration, real-time data, testing, and technical documentation.

TECHNICAL SKILLS

Frontend & Mobile: React, React Native, Expo, JavaScript, React/Vite

Data & Cloud: Firebase Realtime Database, Firestore, PostgreSQL, SQL, JSON

Backend & APIs: Python, Django REST Framework, Flask, REST API Integration

IoT & Embedded: ESP32, Arduino, C/C++, HC-SR04 ultrasonic sensors

Tools: Git, GitHub, Figma, Netlify, Render, WordPress, Microsoft Office

WORK EXPERIENCE

- Logicute — Mobile Application Developer Intern (CO-OP) | Feb 2026 – May 2026

Completed a full-semester university CO-OP internship focused on cross-platform mobile application development. Built React Native and Expo applications, including Lilithia and SwipeBooks, contributing to screen implementation, navigation flows, reusable UI components, Firebase-backed features, testing, and project documentation.

- Sca Social — Project Management Intern | Jun 2025 – Aug 2025

Participated in a structured internship program in collaboration with TNC Group and Europäisches Bildungsinstitut. Received training on project management, AI & data science, and IT law. Completed weekly assignments and delivered four cross-disciplinary final projects.

- Carousel Oceanfront Hotel & Condos / Dolle's Candyland Inc. — Work and Travel Experience, Ocean City, MD, USA | Summer 2023

Worked in front desk and sales roles in a fast-paced international environment, strengthening communication, customer service, problem-solving, and daily operations skills.

SELECTED PROJECTS

Smart Bin — IoT Waste Management System (ESP32 · React · React Native · Firebase)

End-to-end IoT system with real-time fill-level monitoring via Firebase, visualized in a React web dashboard and React Native mobile app.

DSC HKU Website (*React · Django REST · PostgreSQL · Cloudinary*)

Full-stack community platform with CMS, admin panel, blog/event management, and responsive design. Deployed on Netlify and Render.

Lilithia — Story Reader App (*React Native · Expo · Firebase — Google Play Store*)

Published mobile reading app on Google Play Store with offline reading, favorites, and Firebase-backed user data.

Smurfia — English Learning & Mistake Notebook App (*React Native · Expo · Firebase — Google Play Store*)

Mobile learning app published on Google Play Store. Features a mistake notebook, flashcard system, and auto-generated tests based on user errors. Firebase Firestore used for secure data storage.

MindCaps — AI-Powered Emotional Reflection App (*React Native · Flask · LLM API*)

Built a bilingual mobile app that analyzes free-text emotional input and returns structured, supportive, non-clinical reflection prompts. Designed the React Native frontend, Flask API backend, and JSON-based AI response flow.

ADDITIONAL PROJECTS

SwipeBooks — Mobile book discovery app developed with React Native and Expo.

What Is In My Fridge — Mobile app for tracking fridge items and food planning.

Automated Email Sender — Web utility for automated email sending workflows.

Smart Home Security System — IoT/security prototype using ESP32 and sensor-based logic.

LEADERSHIP & COMMUNITY EXPERIENCE

- Google Developer Student Clubs Hasan Kalyoncu University — Campus Lead
Campus Lead: 2023–2024 | Core Team Member: 2022–2023

Led the student developer community, coordinated the core team, and organized technical workshops, study jams, info sessions, and hackathon-related activities in collaboration with the GDSC Turkey ecosystem and academic advisor.

- IEEE Twin Student Branches Project — Branch Representative
Nov. 2022 – Dec. 2024

Represented Hasan Kalyoncu University within a sibling-branch collaboration and supported communication between student branches.

- HKU Kariyer Topluluğu — Core Team Member (Aug 2024 – Sep 2025)

Contributed to planning and execution of university career events and workshops. Assisted with organizational tasks, technical setup, and event coordination.

- HKU Yazılım — Event Coordinator (Aug 2022 – Jun 2025)

Designed event visuals and graphics, coordinated logistics, and assisted in planning and executing campus tech events.

EDUCATION

- Hasan Kalyoncu University — B.S. in Software Engineering
Graduated: June 2026 | Medium of Instruction: English

Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Mobile Application Development, IoT Systems, Artificial Intelligence, Computer Networks

CERTIFICATIONS

- Project Management Internship Certificate & Reference Letter – Sca Social, 2025
- Campus Representative Graduation Certificate – Google Developer Student Clubs, 2024
- Work and Travel Certificate – Success Study Abroad, **United States of America (USA)**, 2023
- B2 English Language Certificate – ST Giles International School, **United Kingdom (UK)**, 2022
- Game and App Academy: App Development with Flutter, 2023
- HKU Game Jam 2022 — Moderator Certificate
- Boğaziçi Defense Industry Summit — Participant, 2023
